ABOUT THE ORGANISERS

World Business Chamber (WBC)

World Business Chamber is a non-aligned international convening platform for ethical, responsible and sustainable business leadership. WBC connects government, business, SMEs, academia and civil society to improve the business and investment climate through trusted dialogue and practical connectivity. In a world shaped by geopolitical risk, geoeconomic fragmentation and policy inconsistency, business communities need credible spaces where priorities can be exchanged and cooperation can be built. WBC responds to this need by acting as a bridge-builder for cross-border cooperation, policy dialogue, market access, leadership development and practical partnerships. Its direction is guided by responsible business diplomacy and the 3Ps impact lens: Planet, People and Prosperity.

The Center for Dialogue and Cooperation among Civilizations (CDCC)

The Center for Dialogue and Cooperation among Civilizations (CDCC) was established in 2006 by a distinguished circle of Indonesian scholars and international-relations practitioners. It was born from a profound intellectual and moral imperative — among others, as a response to the "clash of civilizations" narrative that has defined much of the early 21st century.

The purpose of the Centre is to serve dialogue and cooperation among civilizations at large.

- Promote awareness of social, economic, political, cultural and philosophical thought.
- Highlight the human intellectual contribution and its impact on civilization.
- Deepen dialogue and foster cooperation among various schools of civilization.
